

HAITI ADVOCACY WORKING GROUP (HAWG)

HAWG is a working group of international development, faith-based, human rights and social justice organizations advocating on issues related to U.S.-Haiti policy.

Haiti Earthquake 2-Year Public Commemoration Events

The Haiti Advocacy Working Group, Haitian social movements and Haitian Diaspora groups are working with the U.S. Congressional allies, including members of the Congressional Black Caucus, to raise attention to the current status of Haiti's reconstruction process at the 2 year commemoration marker. From January 23-25, 2012, Haitians, Haitian-Americans and other Haitian development experts will bring their voices to Capitol Hill. HAWG allies will advocate for a just reconstruction and development process in Haiti, one that prioritizes the needs of women, internally displaced persons, smallholder farmers, the urban poor, immigrants and other vulnerable Haitians, includes the full participation of Haitian grassroots groups and the Diaspora and holds the US government accountable for delivery of its commitments.
